

ACAI VENTURES PRIVATE LIMITED

Managing Projects | Curating Wealth

Integrated Infrastructure | Strategic Management
| Future-Ready Solutions

THE FIRM

ACAI Ventures Private Limited is a boutique strategic infrastructure and venture management enterprise focused on execution-led development, sustainability & ESG-oriented ecosystems, and long-term value creation.

With expertise across Project Management Consultancy (PMC), infrastructure development, asset & wealth management, logistics, warehousing, sustainability, ESG, digital infrastructure, institutional projects, and strategic advisory services, ACAI Ventures delivers integrated solutions designed to support operational efficiency, scalable growth, and professionally managed ventures.

The company operates through a niche institutional and execution-oriented approach across renewable energy, e-waste & recycling infrastructure, AI-enabled systems, institutional development, warehousing & logistics infrastructure, and other future-ready operational ecosystems.

ACAI Ventures aspires to contribute towards responsible development, employment generation, innovation-driven growth, and long-term economic value through professionally structured and sustainable platforms.

STRATEGIC EXECUTION • SUSTAINABLE FUTURE • ENDURING VALUE

OUR CORE VERTICALS

Integrated capabilities across execution, infrastructure, logistics and asset ecosystems to create long-term impact and enduring value.

PROJECT MANAGEMENT CONSULTANCY (PMC)

End-to-end project lifecycle management from strategy, feasibility and DPR to execution, operations and long-term management. Delivering sustainable, impactful and future-ready solutions.

01

INFRASTRUCTURE & REAL ESTATE VERTICAL

Enabling infrastructure support for our PMC projects and other industries. Through strategic real estate and infrastructure developments, we create value, drive regional growth and build a self-sustaining investment platform for long-term stability.

02

LOGISTICS, WAREHOUSING & SUPPLY CHAIN

In the digital era, efficient logistics and warehousing create real value. We build world-class warehousing and supply chain ecosystems that empower businesses and offer investors a pathway to stable rentals and sustainable income.

03

ASSET & WEALTH MANAGEMENT

We help build sustainable businesses through PMC, infrastructure and warehousing ecosystems. We connect land and asset owners with the right projects and corporates, converting assets into earning opportunities and long-term wealth.

 STRATEGIC THINKING

 EXECUTION EXCELLENCE

 TRUST & PARTNERSHIP

 SUSTAINABLE IMPACT

 LONG-TERM VALUE

1. PROJECT MANAGEMENT CONSULTANCY (PMC)

ACAI Ventures provides comprehensive Project Management Consultancy (PMC) services focused on complete project lifecycle management — from project structuring and feasibility analysis to execution, operational setup, and long-term management support.

The PMC division supports businesses, institutions, investors, entrepreneurs, startups, and development-oriented organizations through DPR preparation, business planning, infrastructure strategy, execution management, vendor coordination, documentation assistance, and operational structuring.

Beyond conventional consultancy, ACAI Ventures functions as a strategic execution and management partner for sustainability-oriented, ESG-focused, infrastructure-linked, and innovation-driven projects aligned with institutional standards and operational requirements.

In alignment with the Government of India's Startup India, Skill Development, Sustainability, and innovation-driven initiatives, ACAI Ventures also supports emerging entrepreneurs and youth-oriented ecosystems through strategic guidance, consultancy support, awareness initiatives, training-oriented platforms, and professionally structured execution assistance — enabling individuals to contribute meaningfully towards their own growth as well as the development and progress of their districts, states, the nation, and the broader success of India's startup and innovation ecosystem.

OUR STRATEGIC VERTICALS

Integrated ecosystems. Sustainable solutions. Enduring impact.
Building a better tomorrow through strategic execution and responsible development.

PMC STRATEGIC VERTICALS

A. FUTURE SUSTAINABILITY VERTICAL

(Sustainability & ESG Solutions)

This vertical focuses on sustainability-oriented and ESG-driven ecosystems designed to support future-ready development and responsible growth models.

Key focus areas include Renewable Energy & Sustainability Projects, Carbon Credit & Green Initiatives, Water Management & Treatment Systems, and E-Waste Management ecosystems supported by increasing policy focus, government initiatives, and long-term growth opportunities.

B. DIGITAL & INTELLIGENCE VERTICAL

(Digital Infrastructure, AI Automation & Skill Development Solutions)

This vertical focuses on digital transformation, AI automation, smart operational systems, and future-ready technology ecosystems designed to support evolving institutional and business requirements.

The division also works across AI Automation, Skill Development, and EdTech Learning platforms aimed at helping youth, entrepreneurs, and professionals adapt to modern technological advancements and emerging industry needs.

ACAI Ventures further supports government, private, and public-sector organizations through automation, digitalization, operational intelligence systems, and technology-driven infrastructure solutions aligned with the evolving digital economy and future-ready growth ecosystems.

C. SOCIAL INFRASTRUCTURE VERTICAL

(Social Infrastructure & Institutional Projects)

This vertical focuses on development-oriented institutional ecosystems across healthcare, wellness, education, and integrated social infrastructure sectors.

Key focus areas include Healthcare & Wellness Infrastructure, Educational & Institutional Projects, Smart Campus Ecosystems, and Public-Private Partnership (PPP)-oriented development opportunities designed for stable and long-term growth.

D. AGRI & RURAL ECONOMY VERTICAL

(Agri & Rural Development Projects)

This vertical focuses on agriculture-linked, sustainability-oriented, and rural development ecosystems designed to support land-based growth opportunities and integrated rural infrastructure development. Key focus areas include Farming Ecosystems, Dairy & Animal Husbandry, Rural Infrastructure Support, Sustainability-Linked Agricultural Projects, and subsidy-oriented development opportunities with long-term scalability potential.

E. STRATEGIC & GOVERNMENT PROJECTS

(Strategic & Advisory)

This vertical focuses on strategic, infrastructure-linked, compliance-oriented, and government-associated projects requiring structured execution support, institutional coordination, and long-term strategic partnerships.

Key focus areas include Government Projects, Strategic Infrastructure Initiatives, Drone & Emerging Technology Ecosystems, AI-enabled operational support systems, and other high-entry-barrier sectors requiring regulatory compliance, technical coordination, and professionally managed execution capabilities.

2. INFRASTRUCTURE & REAL ESTATE VERTICAL

(Infrastructure & Real Estate Support)

The Infrastructure & Real Estate vertical serves as a strategic support ecosystem for ACAI Ventures' Project Management Consultancy (PMC) operations while also supporting infrastructure and real estate requirements across multiple sectors and industries.

The division provides infrastructure planning, land-related coordination, institutional and operational infrastructure support, and selective real estate development assistance aligned with industrial, logistics, institutional, and sustainability-oriented ecosystems.

The vertical also enables the group to build long-term operational stability and sustainable growth through strategically aligned infrastructure and real estate investments, while contributing towards broader development-oriented and integrated growth initiatives.

3. LOGISTICS, WAREHOUSING & SUPPLY CHAIN

(Warehousing, Logistics & Operational Infrastructure)

In today's rapidly evolving and digitally connected economy, logistics, warehousing, and supply-chain ecosystems play a critical role in supporting commerce, industrial growth, and operational efficiency.

This vertical focuses on warehousing infrastructure, industrial storage ecosystems, logistics support systems, supply-chain operations, and distribution-oriented infrastructure designed to support both internal group operations and external business requirements across multiple sectors.

Beyond operational infrastructure, the division also aims to create sustainable and professionally managed investment opportunities through warehousing and rental-based infrastructure models, enabling long-term value creation, stable rental ecosystems, and future-oriented growth opportunities.

4. ASSET & WEALTH MANAGEMENT

(Strategic Asset & Sustainable Wealth Ecosystems)

This vertical focuses on creating sustainable wealth and long-term asset growth opportunities through strategically aligned business ecosystems, infrastructure-backed investments, and professionally managed operational platforms.

Alongside supporting clients through PMC-led business and infrastructure development initiatives, the division also enables individuals, landowners, and asset holders to transform underutilized assets into professionally managed and revenue-generating opportunities through strategic projects, warehousing ecosystems, infrastructure-linked developments, and corporate-oriented operational models.

The vertical is designed to support sustainable income generation, long-term asset appreciation, and stable growth opportunities through professionally structured and future-oriented investment ecosystems.

OUR VISION

To build a trusted, future-ready enterprise delivering integrated infrastructure, strategic management, and sustainable business solutions that create long-term value across industries. ACAI Ventures envisions creating a dynamic platform of opportunities where individuals, businesses, institutions, and emerging enterprises can effectively utilize their energy, capabilities, manpower, assets, resources, and capital to establish scalable and sustainable ventures.

Through strategic guidance, project management expertise, infrastructure support, operational systems, and access to growth-oriented ecosystems, the company aims to empower stakeholders to leverage government-supported initiatives, development programs, and emerging economic opportunities in a structured, responsible, and future-focused manner. Our vision extends beyond business growth — we aspire to contribute towards inclusive development, economic progress, employment generation, infrastructure advancement, and the long-term growth of society, states, and the nation through responsible enterprise, strategic collaboration, and sustainable development.

THANK YOU

Curated Development. Enduring Value
